

Biology As Ideology The Doctrine

An ideology is a collection of normative beliefs and values that an individual or group holds for other than purely epistemic reasons. The term is especially used to describe a system of ideas and ideals which forms the basis of economic or political theory and policy. In political science it is used in a descriptive sense to refer to political ...

Ideology - Wikipedia

Biology and political orientation is a concept based on a number of studies that have found that biology can be linked with political orientation. This means that biology is a possible factor in political orientation, but may also mean that the ideology a person identifies with changes a person's ability to perform certain tasks.

Biology and political orientation - Wikipedia

Philosophy vs Ideology. There are very fundamental differences between philosophy and ideology. Ideology refers to a set of beliefs, doctrines that back a certain social institution or a particular organization.
