Joseph John Campbell (March 26, 1904 – October 30, 1987) was an American Professor of Literature at Sarah Lawrence College who worked in comparative mythology and comparative religion.

### **Joseph Campbell - Wikipedia**

Biology is the natural science that studies life and living organisms, including their physical structure, chemical processes, molecular interactions, physiological mechanisms, development and evolution. Despite the complexity of the science, there are certain unifying concepts that consolidate it into a single, coherent field.
