ALEX for Windows v15 is completely redesigned, and now supports the same functionality as ALEX Server. This includes showing the Library View (list of libraries) and the Document View (when a library has been opened) in different browser windows, making it also possible to open several libraries at the same time, each in its own window.

If you want the latest version of Alex executable this can only be obtained legally from Ericsson or an Ericsson distributor. Alex has nothing to do with Aastra! If you have an Alex library, you can access the information by renaming the file from .alx to .zip and extract the individual html and gif files however it is far from user friendly as the file names are related to the product code.
