Delivering value in the shortest sustainable lead time requires decentralized decision-making. It is a key tenet of Lean thinking. Any decision that must be escalated to higher levels of authority introduces a delay. Also, escalated decisions can decrease quality due to the lack of local context

### **Principle #9 - Decentralize Decision-Making - Scaled Agile ...**

Person centred planning is a collection of tools and approaches based upon a set of shared values that can be used to plan with a person – not for them. These tools can be used to help the person think about what is important in their lives now and also to think about what would make a good future.

The Assumption. B2B suppliers increasingly believe that their customers are highly empowered and need sellers only at the very end of the purchase process.

### **The New B2B Sales Imperative - Harvard Business Review**

Copying clinical documentation can be a time-saver for busy clinicians. It also can pose a risk to document integrity. For organizations that allow use of the copy functionality in their EHR systems, part of keeping compliant with organizational, state, and federal requirements is auditing the practice for proper use.
